

# HARTLAND SCHOOL STRATEGIC SCHOOL PLAN

## VISION STATEMENT

Building on our strong sense of community and belief in active citizenship, Hartland School will prepare students to be innovative, self-directed, and collaborative members of their local and global communities with the 21<sup>st</sup> Century skills and habits of mind that lead to productive and meaningful lives.

## MISSION STATEMENT

The mission of Hartland School is to provide dynamic learning opportunities in a challenging and nurturing environment, inspiring life-long learning and the realization of full potential.

## CORE BELIEFS

### **We believe that...**

Learning is enhanced when family, community and school establish **relationships**, share resources, and support mutual goals.

Children and adults thrive in a safe and secure learning **environment** characterized by responsibility, fairness, respect, and civility.

With well-articulated curriculum and high **expectations**, quality services and support, we all have the opportunity to meet our full potential.

A culture of **collaboration**, inquiry, and self-reflection supported by research-based practices is critical to the continuous improvement of teaching and learning.

Students need opportunities to develop **self-direction**, stamina, perseverance, and strategic thinking.

All learners need to explore and develop the **creative processes** that are intrinsic to each discipline.
